

DDEC VI

**Detroit Diesel Electronic Controls Series 60, DD-13, DD-15, MBE
2007–2009
PN 889015**

The Pro-Link iQ™ DDEC VI software application provides reprogramming and diagnostic capability for DDEC VI electronic systems. With the combined power of the easy-to-use Pro-Link iQ™ and the functionality of the DDEC VI software application, service bay technicians experience unprecedented out-of-the-box productivity.

Benefits

- Easy to use
- Portable
- No interface cable setup

Basic Functions

- Read Fault Codes
- Clear Fault Codes
- View Engine Data

Advanced Features

Diagnostic Tests

- Recalibrate EGR Differential Pressure Sensor
- Activate Digital Outputs
- Activate PWM Outputs
- Cylinder Cutout
- ECM Inputs
- ECM Outputs
- DPF Regeneration

Display and change configurable parameters

- Clear Maintenance Codes
- Reset Trip Info
- Engine/Vehicle Options
- Fuel Economy Incentive
- Idle Option
- Injector Calibration Codes
- Variable Speed Governor
- Engine Protection
- Cruise Control
- Progressive Shift
- Engine Horsepower Rating
- Maintenance Alert System
- Function Lockout
- Passwords
